## **MATERIAL SAFETY DATA SHEET**

## **CAUSTIC SODA**

| 1. Product and Company Identification |                    |  |
|---------------------------------------|--------------------|--|
| Material name                         | CAUSTIC SODA       |  |
| Chemical name                         | Sodium hydroxide   |  |
| Applications                          | Alkalinity Control |  |
| Supplier                              |                    |  |

### 2. Composition / Information on Ingredients

| Components                         |  | CAS #                    | Percent                  |
|------------------------------------|--|--------------------------|--------------------------|
| SODIUM HYDROXIDE                   |  | 1310-73-2                | > 97                     |
| Non-hazardous and other components | s below reportable levels  |                          | 1 - 2.5                  |
| Composition comments               | This product is not considered to be a carcino   | gen by IARC, ACGIH       | , NTP, or OSHA.          |
| 3. Hazards Identification          |  |                          |                          |
| Emergency overview                 | May cause severe irritation or burns to the eye respiratory system. Risk of serious damage to  |                          | nal tract, and           |
| Potential health effects           |  |                          |                          |
| Routes of exposure                 | Inhalation. Skin contact. Eye contact.   |                          |                          |
| Eyes                               | Causes severe eye burns. Corrosive to the eyes and may cause severe damage including blindness.  |                          |                          |
| Skin                               | Contact causes severe skin irritation and poss   | sible burns.             |                          |
| Inhalation                         | Can cause severe respiratory irritation. Inhalation of mists or vapors may produce upper airway edema, wheezing, pulmonary edema, pneumonitis and respiratory failure.             |                          |                          |
| Ingestion                          | Ingestion may produce burns to the lips, oral cavity, upper airway, esophagus and possibly the digestive tract. Ingestion of this product may cause nausea, vomiting and diarrhea. |                          |                          |
| Target organs                      | Eyes. Respiratory system. Skin.  |                          |                          |
| Chronic effects                    | Prolonged skin contact may defat the skin and  | d produce dermatitis.    |                          |
| 4. First Aid Measures              |  |                          |                          |
| First aid procedures               |  |                          |                          |
| Eye contact                        | Rinse immediately with plenty of water, also u<br>medical attention immediately.   | inder the eyelids, for a | at least 15 minutes. Get |
| Skin contact                       | Wash off immediately with plenty of water for<br>mild soap and water. Remove and isolate con<br>attention immediately. Launder contaminated  | taminated clothing an    | d shoes. Get medical     |
| Inhalation                         | Move to fresh air. If breathing is difficult, give   | oxygen. Get medical a    | attention immediately.   |
| Ingestion                          | Immediately give large quantities of water to c<br>occurs naturally, have victim lean forward to r<br>attention immediately.   |                          |                          |
| General advice                     | Keep victim warm. In case of shortness of bre<br>attention is required. Ensure that medical pers<br>and take precautions to protect themselves.                                    |                          |                          |
| 5. Fire Fighting Measures          |  |                          |                          |
| Flammable properties               | None known.  |                          |                          |
| Extinguishing media                |  |                          |                          |
| Suitable extinguishing media       | Do not use water. Use extinguishing agent su   | itable for type of surro | ounding fire.            |
|                                    |  |                          |                          |

| Protection of firefighters                          |   |  |
|---|---|--|
| Protective equipment for firefighters               | Move containers from fire area if you can do it without risk. Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus, protective clothing and face mask.  |  |
| 6. Accidental Release Meas                          | ures  |  |
| Evacuation procedures                               | Ventilate closed spaces before entering. Keep unnecessary personnel away. Local authorities should be advised if significant spillages cannot be contained.   |  |
| Methods for containment                             | Prevent entry into waterways, sewers, basements or confined areas. Stop the flow of material, if this is without risk.  |  |
| Methods for cleaning up                             | Shovel or sweep up. Avoid dust formation.   |  |
| 7. Handling and Storage                             |   |  |
| Handling  | Handle and open container with care. Avoid breathing dusts from this material. Do not get this material in your eyes, on your skin, or on your clothing. Wash hands after handling and before eating. Considerable heat is generated when water or acid is added, therefore when making solutions always add the caustic to the water or acid with constant stirring. |  |
| Storage   | Use care in handling/storage. Keep containers tightly closed in a dry, cool and well-ventilated place. Keep this material away from food, drink and animal feed. Keep out of the reach of children.   |  |
| 8. Exposure Controls / Pers                         | onal Protection   |  |
| Exposure guidelines                                 |   |  |
| ACGIH - Threshold Limits Values                     | - Ceilings (TLV-C)  |  |
| SODIUM HYDROXIDE<br>ACGIH - Threshold Limits Values | 1310-73-2 2 Mg/m3 Ceiling<br><b>- TLV Basis - Critical Effects</b>  |  |
| SODIUM HYDROXIDE<br>OSHA - Final PELs - Time Weight | 1310-73-2 irritation<br>ted Averages (TWAs)   |  |
| SODIUM HYDROXIDE                                    | 1310-73-2 2 Mg/m3 TWA   |  |
| Engineering controls                                | Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits.  |  |
| Personal protective equipment                       |   |  |
| Eye / face protection                               | Wear chemical goggles. Face-shield. Eye wash fountain and emergency showers are recommended.  |  |
| Skin protection                                     | Use of protective coveralls and long sleeves is recommended. Use of impervious boots is   |  |

|                                | include rubber, neoprene, nitrile or viton.  |
|--------------------------------|--|
| Respiratory protection         | When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.   |
| General hygeine considerations | Avoid contact with the skin and the eyes. Keep away from food and drink. Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and immediately after handling the product. |

# 9. Physical and Chemical Properties

| Appearance / Color / Form                      | Pellets. White. Solid.   |
|--|--|
| Odor   | Odourless.   |
| Clarity  | Not available  |
| Odor threshold                                 | Not available  |
| Physical state                                 | Solid  |
| рН   | 12, conc: 0.05% (solution); 13, conc: 1% (solution); 14, conc: 5% (solution) |
| Melting point                                  | 604.4 °F (318 °C) estimated  |
| Freezing point                                 | Not available  |
| Boiling point                                  | 2534 °F (1390 °C) estimated  |
| Flash point                                    | Not available  |
| Evaporation rate                               | Not available  |
| Flammability limits in air, lower, % by volume | Not available  |
| Flammability limits in air, upper, % by volume | Not available  |
| Vapor pressure                                 | 0 HPa at 20 °C   |
| Vapor density                                  | Not available  |

Material name: CAUSTIC SODA Material ID: 1070 Revision date: 27-MAR-2006 Print date: 27-MAR-2006

| Specific gravity                    | 2.13 @20 C  |
|-------------------------------------|---|
| Relative density                    | 2.1322 estimated  |
| Solubility                          | Soluble in water.   |
| Octanol/H2O coeff                   | Not available   |
| Auto-ignition temperature           | Not available   |
| Decomposition temperature           | Not available   |
| Molecular weight                    | 40.01 g/mol   |
| Molecular formula                   | NaOH  |
| 10. Chemical Stability and Rea      | ativity Information   |
| Chemical stability                  | Stable at normal conditions.  |
| Conditions to avoid                 | Avoid contact with water. Direct contact with water may cause an exothermic reaction.   |
| Incompatible materials              | Alkali sensitive metals or alloys including aluminum, brass, bronze, copper, lead, tin, and zinc. Acids. Halogenated compounds.                         |
| Hazardous decomposition products    | None known.   |
| Possibility of hazardous reactions  | Will not occur.   |
| 11. Toxicological Information       |   |
| Acute effects                       | Causes severe burns.  |
| Component analysis - LD50           |   |
| Toxicology Data - Selected LD50s ar | nd LC50s  |
| SODIUM HYDROXIDE                    | 1310-73-2 Dermal LD50 Rabbit: 1350 mg/kg  |
| Chronic effects                     | Prolonged or repeated exposure may cause lung injury. Prolonged skin contact may defat the skin and produce dermatitis.                                 |
| 12. Ecological Information          |   |
| Ecotoxicity                         | Because of the high pH of this product, it would be expected to produce significant ecotoxicity upon exposure to aquatic organisms and aquatic systems. |
| Environmental effects               | Harmful to aquatic life.  |
| Persistence / degradability         | This material is inorganic and not subject to biodegradation.   |
| Bioaccumulation / accumulation      | Not expected to bioaccumulate.  |
| 13. Disposal Considerations         |   |
| Disposal instructions               | Dispose in accordance with all applicable regulations.  |
| 14. Transport Information           |   |
